The Research Association on Monetary Innovation and Community and Complementary Currency Systems (RAMICS) is an association that promotes international and interdisciplinary scientific exchange of the study of historical currencies, the monetary plurality of current community and complementary currencies and other monetary innovations such as cryptocurrencies. Founded at the Salvador da Bahia Conference in 2015, it focuses its studies, on socio-economic innovations in the monetary system that contribute to economic diversity, social cohesion, democratic participation and environmental sustainability.

ISSIRFA CNR has taken on the task of organising the VII Biennial International RAMICS Conference entitled The Future of Money: Democracy, Localism and Inclusion, which will take place from 6 to 9 November 2024 in Rome (conference sessions will be held at the CNR headquarters and at the ISSIRFA Institute headquarters).

Themes for paper presentations are:

Digitalization - Can CCS help bridge the distance between the technological and digital divides

Regional/Local - Communication between local/ regional administrations and communities through CCS

Welfare state - how CCS can help the social system

Environment - The role of the CCS in the field of sustainable and biodiversity

Historical - the different economic, social and cultural phases of the history of complementary currencies

CCS - Review and renew. Case studies, concepts, experience reports
