WORK EXPERIENCE

From 2014 to now

1st level Technologist

CNR - Issirfa

- Team Leader “Regional Credit market monitoring”: the goal of the project is the definition of a systematic and as complete framework as possible of the credit market in Italy at regional level, including fintech services as well as collaborative and mutual credit (CCS) practices.
- Research team “Fiscal federalism and regional spending”: the progress of implementation of fiscal federalism, through the analysis of the multi-years trend of the government funds to regional administrations and the revenue of the Regions as well as the study of the impact of asymmetric federalism process on the services connected to fundamental rights (health, education, etc.), are investigated.
- Research team “Covid-19 regional financial actions monitoring”: the research activity provides data and analysis on the regional actions, complementary to Government one, to fund emergency measures to support for incomes and businesses to face the effects of the economic crisis caused by "coronavirus".
- Co-lead research team “Report on the state of research and innovation in Italy”: the Report provides an overall picture of Italy's performance and its evolution over the last few years through a series of scientific and technological indicators. A specific task is the investigation of regional strategies fostering businesses and the competitiveness of their territories.
- Co-lead research team “ERA-FABRIC”: Analysis and mapping of regional research and innovation systems in Europe.
